

JUDGE PARKER IS NOTIFIED OF

**Thousands Stand in Rain to Witness Ceremony
The Very Air Seemed Filled With Determination to Fight for Victory for Man
Who Represents the People.**

Esopus August 10—Judge Alton B Parker was today formally notified of his nomination as the candidate for the democratic party for president.

The ceremony occurred on the lawn of Rosemount his handsome country home and in addition to the members of the notification committee and many prominent men of his party hundreds of the candidates friends and neighbors assembled to witness the event. The weather was not auspicious. The sky was overcast and threatened a downpour but in spite of this unfavorable sign, it was decided that the ceremony should be held on the grounds instead of on the boat which brought the notification committee and its guests from New York. Before Representative Champ Clark had concluded his formal address the rain began to fall fitfully but Judge Parker stood bareheaded to the shower and received from Mr. Clark's hands the official letter which informed him of the action of the St. Louis convention.

Forpus N. Y. Aug. 11. Notwithstanding the great loss in the United States of Justice, coming away with a pouring rain which was just into twilight and contounded the people as of those who had missed Judge Parker had a great deal of cases when he was to receive formal notification of his selection as the national democratic convention was nominated for a president of the United States. There was no sign of anything but the fairest kind of a day for last night but when looked Parker rose at his usual hour and was coming down in a study pour from a bedded sleep.

There was an unusually large gathering at breakfast at Rosemount and the table at whose head Judge Parker sat had about a practically all of its immediate relatives. Besides his own family and that of Mr Charles Hall his son in law there was present Mr John Parker of Derby Conn the Judge's mother Mrs Alfred Tanner of Livingston sister of Mrs Parker (Mr and Mrs) A Miles of Derby Conn brother in law and sister of Judge Parker Mrs Daniel Manning of Albany widow of President Cleveland's first secretary of the treasury.

At 10 30 there was some indication of a break in the storm though rain continued unabated. It was announced that unless the weather cleared the notification (element) would take place upon the steamboat Sagamore. It appeared in fact that it was mainly for this purpose that the boat had been engaged. On account of the rain the grounds and porch of Rosemont were comparatively deserted. The only newcomers that arrived up to 10 30 were V I Dowling of New York and Mr and Mrs George F. Neid-

The Neddingers have the old Asbury place near Rosemount and a number of friends of Judge and Mrs. Parker. Mrs. Neddinger brought in her carriage the first floral offerings that reached the candidate a whole armful of blossoms and colored foliage among which were gladiolas and flowering maple. Former Senator David Hill sent his secretary J. P. Manweiler down from Albany on the evening train. Mr. Manweiler who was accompanied by M. Delancy of the democratic state headquarters at Albany was met at the Esopus station by Hill and driven to Rosemount. He carried a huge box of flowers from Mr. Hill for Mrs. Parker. The

The offer was accepted with thanks by Secretary McCausland but there was little need of the presence of civil authority. The only police officer or detective on the police duty that morning was Chief Humphreys of the New York Central railroad detective force who came to look after the railroad end of the affair. At 11 30 the rain had nearly ceased turning to fine mist but the cloudy sky showed no break.

At 12 30 the sky which had lightened considerably after the rain had stopped again became very dark and lowering and Secretary McCausland believed that the speech making would have to be done on the boat. Word was received from down the river which indicated that the Sagamore had been late in leaving New York and that it would be 2 p m before it could reach Rosemount.

The trip of the notification committee from New York to Espino was attended with much discomfort to passengers due to contagiousness which drove everybody from the ship.

The boat was manned by 12 oarsmen, all of whom were notified by Judge Albert B. Parker, who has been nominated for president by the democratic national convention.

The members of the party were disappointed that the weather would close up by the time the "big" parade began, which will be about 2 o'clock. The national committee, the members of the national committee and many other prominent democrats were guests of the state committee on this occasion. Nearly every prominent democrat within reach was invited. All of them did not avail themselves of the privilege of going on the bus, but many went by train as they

The Stearns Sagamore bearing the designation of the notification committee was dispatched from Rosemount at 1:05 p. m. and reached Rosemount wharf at 1:15 p. m.

A West Stearns train arriving just at full moon brought Representative Beal, Chairman and an immense delegation.

The party went to Wm. Sheehan's house for luncheon. About this time the ball hunting began to appear on the grounds at Rosemount.

The Chicago delegation arrived about one o'clock and included John A. King, president of the Ford Dealers' association, as chairman, Frank Doolin, candidate for secretary of the state of Illinois, Preston Harrison, brother of Mayor Harrison, and candidate for congress.

This delegation brought a message to Judge Parker from Mayor Harrison to the effect that he was reluctantly obliged to forego the pleasure of attending the notification ceremony largely on account of general strike in Chicago.

CLUBS TO CONSOLIDATE.

New York, Aug. 10.—Negotiations are under way between the directors of the Lotus club and the New York club looking to a consolidation of these well known organizations. It is known that the Lotus club owns a valuable property in Fifth avenue, which it is proposed to sell with the proceeds build a new clubhouse, further up the avenue.

**Whether Kuropatkin Could Now Withdraw If
He So Desired. Japanese Cordon Is Daily
Tightening Its Coil Around Him And Is
Ready for Decisive Battle.**

St Petersburg, Aug 10.—1 p m.—
Nervousness over the situation at the
front seems to be increasing since the
occupation by the Japanese of the
Woli Hill before Port Arthur. It is
admitted that the besiegers have an
elevated position, whence emplaced
guns can command the fortress and
while still professing confidence that
General Stoessel will be able to hold
out with his comparatively small gar-
rison against the enormous number
of the attackers and their evident dis-
regard of men indicated by the reck-
less manner in which they stormed
the outer positions, the statement of
officers, creates more apprehension
than the war office or admiralty care
to acknowledge.

Similar misgivings exist regarding General Kuropatkin's position, the advantages of the new Japanese base at New Chwang in greatly simplifying the problem of provisioning the army being fully realized. But it is the report that the Japanese are working upward of the main Russian army, which occasions the greatest uneasiness. The rumor that they are moving towards Simintu, a short distance west of Mukden, from New Shwang is generally believed.

With the Japanese sardon tightening south and east and a column threatening the Russian line of communication - the rear toward Mukden, the appearance of the Japanese on the other side of Mukden would almost pocket General Kuropatkin. He has resolved to accept battle with his whole army at Liao Yang.

Military attaches are extremely doubtful whether General Kuropatkin could now withdraw if he so desired.

Another alarming feature of the situation in connection with the Japanese western column is the report that it includes many Chinese, who are Japanese subjects, from the island of Formosa, whose influence over the local Chinese and soldiers of General Ma, and Viceroy Yunshinkai, is feared.

Russia's Assurance Accepted
Constantinople Aug. 10.—The port has definitely accepted the assurance of Russia as to the character of the volunteer fleet vessels seeking to traverse the Dardanelles. **British Government Has Not Issued Ultimatum
to Nicaragua, Regarding Seizure of Jamaican Fishing Schooners.**

London Aug 10.—The foreign office advises the Associated Press to positively deny the New Orleans report that the British minister to the Central American states has been ordered from Guatemala City to Managua to deliver an ultimatum to the Nicaraguan government regarding the seizure of Cayman (Jamaican) fishing schooners and their crews by the authorities of Nicaragua. The matter is under discussion by the two governments but no suggestion of force was contained in any of the British communications and while the British government adopted a strong attitude it is believed that a satisfactory adjustment by diplomatic means will be effected.

This government would undoubtedly have been notified as a matter of courtesy if Great Britain intended to occupy a Nicaraguan port.

Reserve Men in Line
St. Petersburg Aug 10.—Emperor Nicholas has received despatches from General Kuropatkin dated August 4 and 4th mentioning a few minor reinforcements, but saying that there has been no particular changes on either the east or south fronts. On the south the Japanese advance on posts are 50 miles north of Hailu. Cheng daily battles occur between the Russian and Japanese outposts.

General Kuropatkin points out the fact that the Japanese are using bullets of different caliber some with nickel and others with copper coatings showing that their reserve magazines are now in the fighting line.

Russia Makes Diplomatic Reply

St. Petersburg, Aug. 10.—The Russian reply to Great Britain's representations on the subject of the sinking of the British steamer *Knight Cornwall* by the Vladivostok squadron while coached in the friendly terms does not recede from the Russian position as set forth in the previous regulations in regard to the exercise of the right to destroy neutral vessels carrying contraband in cases of emergency. Nevertheless the question for discussion after the war. At the same time Ruzhica assures Great Britain that the extreme recourse to sink neutral vessels will not be resorted to unless circumstances render it impossible to take them to a prize court. Great Britain's proposal that the British steamer *Allentown*, captured June 14th by the Vladivostok squadron be liberated upon the deposit of security has not been accepted. Russia replying that the documents if this case were already in their way to St. Petersburg and would have to be submitted to the admiralty court before further action is taken.

Russia has formally notified the United States of the decision of the prize court in the case of the Port and Asiatic line steamer Arabia captured by the cruiser Gromoboi of Vladivostok squadron but the statement from Vladivostok on the subject leaves some doubt as to whether the goods consigned to Japanese ports were declared contraband or only flour and railroad material.

LAST Week Was Less Favorable On the Whole For Maturing Crops Than Previous One.

Many Regions Suffered From Excessive Rains, Others From Drought.

Rust Is Reported in More Northerly Sections, and Has Proved Very Injurious in North Dakota and Minnesota.

Washington, Aug. 10.—The weather bureau's weekly report of crop conditions is as follows:

The weather conditions during the week ending August 8th as a whole were less favorable than in the previous week. The central and Atlantic coast districts except northern New England, suffered from excessive rains, while droughty conditions in the central valleys and portions of the upper lake region have become more serious. Generally sufficient rain has been reported in Texas, in Wisconsin, Minnesota and the Dakotas, the weather has been too cool while Washington, Idaho and Oregon have suffered from excessive heat and dryness. Killing frost occurred on the morning of the eighth in the upper region of Wisconsin. In the Ohio valley, corn, the late planted, especially is suffering more or less seriously from drought and rain is needed for this crop in portions of the central Mississippi and lower Missouri valleys. Over the central and western portion corn belt, however, corn has advanced favorably and continues promising. In the upper lake districts the lack of warmth and the absence of rain has checked the growth, the crop being generally backward. In the Atlantic coast districts, corn has made vigorous growth and generally is in excellent condition. Fine weather for threshing prevailed over most of the winter wheat belt, harvesting of winter wheat having been completed in the more northerly districts, except on the north Pacific coast, where it is nearly completed.

Reports of rust in spring wheat continue general in the Dakotas and in portions of Iowa and Minnesota and indicate that the crop has been greatly damaged, except in Minnesota where only a portion of the spring wheat area has been seriously affected, a good crop being promised in other portions of that state.

Harvesting is in progress in South Dakota and southern Minnesota, but has not begun in North Dakota, where the crop is ripening slowly.

The very high temperatures on the north Pacific coast has hastened maturity of spring wheat and caused premature ripening and shedding of the grain in portions of Washington.

Harvesting and threshing of oats have continued under favorable conditions. Rust is reported in the more northerly sections and has proved very injurious in North Dakota and portions of Minnesota. Generally distributed rains have benefited section in Texas, but in the central and eastern portions of the cotton belt, the crop has suffered from excessive moisture, many fields being grassy, and too rapid growth. Rust and shedding are reported from nearly all states east of the Mississippi river.

In the Atlantic coast districts and in Tennessee between continues promising, but in the Ohio valley it is suffering from drought. Late having has been interrupted in the middle Atlantic coast districts and in New England.

Planting for fall seeding has become nearly normal, but the soil is not in condition for this work in the Ohio valley and much of the lake region.

Horrible torture of children

Thousands of Mothers, every night, watch the fevered unrest and the awful torture their babies and children undergo when

Rashes, blotches, pimples and breakings-out

appear on their little bodies and faces. Immediately they imagine the child's blood is impure or poisoned, and begin to dose an already over-worked stomach with vile and noxious drugs, when as a matter of fact the disease is not in the blood, but solely in the skin.

Don't dose the stomach! Treat the skin.
These Rashes, Blotches, Pimples and Breakings-Out are given the general name of **ECZEMA**.

It is purely and simply a local disease and entirely confined to the skin, and in no instance is it the result of impure or poisoned blood. This disease is caused by thousands of little germs which burrow into the outside skin, and their ravages there result in the sores, the fiery itching and burning sensations experienced by sufferers from this disease. The only successful treatment for **ECZEMA** is by **External or Local Applications**.

Our confidence in the D. D. D. Prescription.
So many astonishingly effective and permanent cures have been made by this wonderful Skin Disease Remedy (The D. D. D. Prescription) that we are absolutely convinced it will conquer any and all diseases of the Skin and Scalp.

We back this assertion with our guaranty.
Those who are interested in this subject are invited to call at our store and see actual photographs of many people cured of these seemingly incurable Skin Diseases.

We not only sell at retail, but also supply druggists at wholesale prices. D. D. D. costs but \$1.00 a bottle, and is guaranteed to cure or money refunded.

TENNIS SCORES.
Cleveland, O., Aug. 10.—Rain cut the morning play in the state tennis tournament short. Play will be resumed late this afternoon. Pairings have been made for the consolation doubles and singles.

The fight for runner up seems to be between Little, of Cincinnati and Wirth, of New York, former champion of Ohio.

Morning summaries:
Singles, first round, F. P. Garrison (Cincinnati) defeated M. F. Landron (Cleveland), 6-3, 8-6.
H. W. Andrews defeated Ed. Bushnell, both of Cleveland, 6-2, 7-5.

Second round, A. F. Reed, Oberlin defeated Wm. Bushman, Cleveland, 6-2, 6-1.
Clarence Hill, Cleveland, defeated Dr. H. T. Clapp, Cincinnati, 6-2, 6-3.
F. P. Garrison, Cincinnati, defeated J. A. Paxson, Elyria, 6-1, 6-2.

Doubles: Wyeth, New York and Anthony, Cleveland, defeated Baxter and Andrews, of Lima, 6-2, 6-0, 6-2.
Reed and Reed, of Oberlin defeated Clapp and Landron, Cleveland, 6-2, 6-0, 6-4.

NO ORDERS FOR JEWELL.
Admiral Understands Situation at Smyrna, and Will Act for the Best.

Washington, Aug. 10.—Officials of the state and navy departments conferred today regarding the orders to be given the American European squadron when it arrives at Smyrna. Admiral Jewell's sailing orders were simply to proceed to Smyrna and that officially he goes not knowing the purpose of his cruise. It is said that he will probably understand the situation so well that it will hardly be necessary, and in fact will be rather inexpedient to give him any official orders. His ships therefore probably will lie in the harbor of Smyrna in close touch with the cable and also with Mr. Leishman at Constantinople and with Washington.

YOUNGER ELEMENT IN CONTROL.
Cleveland, O., Aug. 10.—At the 8th judicial circuit court convention, held today, F. T. Henry, was nominated by acclamation to succeed John C. Hale, on the circuit bench. The nomination is in line with the course pursued by the republican convention last Saturday, and marks the coming into control of the younger element of the party.

EVERYTHING IS LOVELY.

Messages of congratulation were exchanged between President Bonilla and President Reyes, and it is believed that diplomatic relations between Colombia and Panama will be established soon.

HIGH Grade Copper Ore Is Abundant In Large Body In the Property Which Was Examined At Baker City, Oregon, By John C. Cronley, of This City.

The County Surveyor Makes a Trip to the West to Investigate Indiana Mining Co.'s Property.

County Surveyor of Lima, J. C. Cronley, has made a careful examination of the copper mine near Baker City, Oregon, which is owned by the Indiana Mining Co., and he finds a wonderful body of high grade copper ore. The report which he made upon his return is as follows:

Mining Report.
Lima, O., Aug. 4, 1904.
On July 21st, 22nd and 23rd, 1904, I made a careful survey and examination of the Meyer's group of mines, now owned and operated by the Indiana Mining Co., with offices at Baker City, Oregon, Anderson, Ind., and Lima, Ohio. This property is situated in the great mineral zone of eastern Oregon on the western slope of one of the foothills of the Powder River range of mountains, about 20 miles northeast of Baker City and 12 miles east of Taitacassit, a station on the O. R. & N. R. R.

The property, containing 210 acres of land, embraces 12 compact mineral claims, as follows:
"The Triangle," Hammer, Peacock, Hunt, 1900, Centennial, War Eagle, Empire, Keystone, Big Creek, Oregon and Indiana No. 1.

The mine is very conveniently situated for easy and economic operation, having the natural requisites in abundance, timber and water, both of which are important factors in mining operations. The climate of this region is quite mild in the winter season, the thermometer rarely falling below zero, and heavy snow storms are of rare and unusual occurrence, thus permitting continuous operation of mines. The facilities for cheap transportation and supplies are here most excellent. In fact, the cost of operating a mine in this immediate locality is much less than in most mining camps of the west. This mine is very economically operated and by persons thoroughly proficient in the management and operation of the same.

The surface improvements are plain but substantial and consist of boarding house, bunk house, office, store room, dwelling house, blacksmith shop, hoist and boiler room. The mine is equipped with boiler, hoisting engine, ore cars, buckets, mining tools and all other appliances necessary to the successful operation of the property.

The big comparison shaft, 741 feet in size, is down 200 feet and well timbered. At the 60 foot level there is a drift to the south 40 feet all in high grade ore. At the 100 foot level there is also a drift to the south showing a fine body of sulphide ore.

The big working shaft passes through a continuous ore body to a depth of 125 feet, at which point, the ore dips to the east at an angle of about 40 degrees, thus causing the shaft to leave the ore body. At the 200 foot level, a cross cut to the east of 39 feet shows the ore again in large and rich quantities.

I traced the main vein, which strikes north and south through the Giant, 1900, Centennial and War Eagle claims by surface croppings a distance of 3500 feet. From the main shaft going north through the three latter claims and in places on the Centennial and War Eagle it is more than 250 feet wide, showing a highly mineralized outcrop of gold and copper ore. There is a parallel vein striking through the Peacock and into the Hammer claim, which has a shaft down 30 feet, showing good values in copper and gold. There is a large porphyry dike several hundred feet in width, paralleling the copper zone on the west and forming its foot wall.

I took samples of the average of the ore at the 60, 100 and 200 foot levels and had the same assayed by a disinterested assayer, one whose ability is recognized by all the large mining concerns of the country. Below will be found the result of his assays for 11 samples of ore from this mine.

I made an examination of this mine to determine the amount of ore in sight and its value in copper, gold and silver, to ascertain the cost of production including mining, concentrating, smelting, refining and shipping. Assuming the ore to be a 3% chalcopyrite concentrating and smelting to a 45% mat, that 8 tons of ore would concentrate to 1 ton by milling. The concentrates would be further concentrated in the proportion of 3 to 1.

Assay Values:
Copper 37.60 lbs at 12c lb.....\$7.20
Gold 25.1000 oz. at \$20.00 an oz.....51
Silver 3. oz at 60c an oz.....45

ONE HUNDRED FINISHERS JOIN.
Clothing Workers Strike by Calling Out Members From Shops Declared Open.

Chicago, Aug. 10.—One hundred garment finishers joined the clothing worker's strike today when two local unions called on all members employed by firms who adopted the open shop policy. The executive council induced the strike of the cutters and hushmen and called out all of their finishers. This adds a considerable number of women to those now on strike as most of the members of the two unions are persons employed in sewing and finishing garments. All are branches of the garment workers' union.

ROBBERS LOOT POSTOFFICE.
Nine Hundred Dollars Carried Away After Exchanging Shots With Posse of Citizens.

New York, Aug. 10.—Posses are searching the woods in the vicinity of Woodmore, L. I., for three robbers who looted the postoffice in that village and carried away \$900 after exchanging shots with a citizen who detected them making away with their spoils. More than fifteen shots were fired before the robbers made good their escape, but it is thought that one bullet reached the mark, as one of the fleeing men was seen to limp as if wounded in the leg.

SAD NEWS AWAITED HIM.
New York, Aug. 10.—General W. Davis, governor of the Panama Canal Zone who had been summoned home because of the illness of his wife, learned upon his arrival here today that Mrs. Davis was dead. Mrs. Davis had been passing the summer in the Adirondacks. When she became seriously ill several days ago, the governor was notified and he left Colon last week on the steamer Alliance. Mrs. Davis died soon after the steamer sailed.

ONE HUNDRED FINISHERS JOIN.
Clothing Workers Strike by Calling Out Members From Shops Declared Open.

Chicago, Aug. 10.—One hundred garment finishers joined the clothing worker's strike today when two local unions called on all members employed by firms who adopted the open shop policy. The executive council induced the strike of the cutters and hushmen and called out all of their finishers. This adds a considerable number of women to those now on strike as most of the members of the two unions are persons employed in sewing and finishing garments. All are branches of the garment workers' union.

HABIT

Of Allowing Horses to Stand in the Street

Untied, Nearly Caused a Bad Spill.

South Lima Happenings of Interest Told in Brief Form.

Clutter's Warehouse Being Extensively Improved - Funeral of Mrs. McFarland - Notes.

Carelessness on the part of the driver of a delivery wagon came near causing a bad mix-up this morning at the corner of Main and Kibby streets; also another at Main and Spring.

In the first instance a horse, which had been left standing without being tied, in front of a grocery, and being thirsty, started for the fountain. Just as the beast attempted to cross the track at the corner a street car came around from Kibby street, and had not the motorman checked the speed of his car, someone would be mourning the loss of a good horse and wagon.

In the second instance, at Main and Spring, the offender was a horse hitched to a milk wagon. The animal had become tired of waiting for its driver, and started along the route alone. As it attempted to cross Main street, somebody shouted "Whoa!" and Mr. Horse stopped square across the track, not only blocking street car traffic, but stopped several vehicles, until the driver came along and, like many other drivers, began jerking the poor brute by the bridle. He was called down to the "queen's taste," and reminded that an ordinance required the tying of his steed whenever and wherever he chose to leave it stand.

Was Appreciated. The scheme of elevating the most clans for the band concert was a good one, and was highly appreciated by the hundreds of music-lovers who gathered at the corner of Main and Kibby last evening. The crowds are increasing, thus proving that the efforts of the enterprising business men to furnish amusement for their patrons is appreciated.

Said a business man last evening: "There is only one man who objects to assisting in this scheme to advertise south Lima, and he says it hurts his business. A man like that would not be much of a success any place, would he? Poor fellow. The people hardly know he is in business, and his own fault."

McFarland Obsequies. The funeral services over the remains of Mrs. Ellen McFarland, of 734 west Kibby street, was held at St. John's church this morning at 9:30 o'clock, where the Rev. Father Ryan officiated with requiem mass, and a most eloquent sermon.

The services were largely attended, both by Lima and out-of-town friends. Interment was made at Gethsemani. Among the out-of-town relatives and friends were Mr. and Mrs. Thos. Sullivan, of Anna Station; Mrs. Mike Dillon, Mrs. Wm. Shine, Miss Julia Doolin, Miss Mary Langan and M. Doolin, all of Sidney; and Mrs. John Sehl, of Harrison, N. J.

Notice to Children. All children of the Main street Presbyterian Sunday school are urged to meet at the church at 2 o'clock tomorrow afternoon.

Extensive Improvements. The grain elevator of Clutter & Long, just west of the C. & E. depot, is being extensively improved, a large addition being added to the east end of the building, and a neat little business office, with entrance on the north

Mostly Personal. Mrs. J. H. Fairburn, of south Elizabeth street, is entertaining her son, Harry McBarren, of Champaign, Ill.

Mr. and Mrs. Stephen Likens returned to Butler, Ind., yesterday, after having been guests of their daughter, Mrs. John Cooper, of Reece avenue, the past month.

Mr. and Mrs. Harry Bullock, of south Pine street, are justly proud of a new baby boy.

Band concert and ice cream social at Market House Wednesday evening, Aug. 10th. Benefit of south Lima Baptist church.

Lew Chung, the laundryman, has as his guest, Charles J. Way, of Toledo. Thomas Phalen and D. F. Ryan left yesterday morning over the C. & E. for Youngstown, to attend the state convention as delegates of the A. O. H., to be held the 9th, 10th and 11th.

Mrs. Elizabeth Hartzog, of Glenmore, who has been a guest of Mrs. Susan Kissell, of Second street, returned home this morning.

Mrs. Guy Blume and children, of Harrison avenue, have returned home after a month's visit with relatives in Indianapolis.

Roy James Thomas, of south Main street, went to Sandusky this morning.

James Hyland, of west Vine street, has returned from Chicago, where he visited a sister.

Columbus relatives are entertaining Mrs. Thomas W. Greenland and children, of south Main street.

Mrs. Charles Backus, of Ada, is entertaining her niece, Miss Gladys Chapman, of Prospect avenue, this city.

Miss Anna McFarland, of west Kibby street, who has been quite poorly for several months, is improving, and is on the way to complete recovery.

A lazy liver makes a lazy man. But dock Blood Bitters is the natural, never failing remedy for a lazy liver.

The Peruvians' Sacred Number.

The Peruvians cared nothing for any of the supposed mystic properties of either three, five or seven. To them the four was sacred, and around it they entwined the main features of all their religious ceremonies and queer beliefs. They believed the earth to be a square divided into four parts and suspended from the heavens by four cords—one at each of the four corners. All of their cities were quartered by four principal streets running from a square in the center. They held four annual feasts in honor of the moon, the "silver sister of the sun."

To them eternity was to be divided into four periods of time, each composed of four times 1,000 years, and at the end of each of these cycles the sun is to be blotted out of existence. They prayed to the four winds, or to "ye gods that dwell at the four corners of the earth." To them the rains came from four enormous heavenly turtles that vomited dampness, and the four winds from the lungs of the four gigantic caryatides which stand at the four cardinal points of paradise. The above are but a small portion of the fancies alluded to in the legends of the Incas.

An Antelope That Dwells in Swamps.

The general idea of an antelope pictures it as a swift runner, fleeing in graceful bounds over stretching brown plains. There is an antelope in the Congo region, however, which rarely ventures to the upland, but actually lives in water, wading practically all of its time, spending around in the swamps and feeding on swamp growth, such as papyrus and other water plants.

This swamp antelope represents among animals what the heron and other wading birds do among birds, and like these wading birds the swamp antelope has extraordinarily long and thin legs, while its hoofs are wonderfully long and spread out almost as fully as bird's claws when the animals wade in the mud, thus supporting them on the soft bottom.

These swamp antelopes are by no means small animals, but belong to the larger forms of their species. A full grown male is as big as the buck of the fallow deer in Virginia.

Gondolas of Venice.

A tourist writes: "Like most characteristic objects appertaining to Venice, the gondola is suitable to the place. Even as the hansom cab suits London or the rickshaw suits Japan or the jumping car suits Ireland, so the gondola is the vessel for Venice. You cannot separate the lagoon from the gondola. One completes the other." The gondola is a man given to many oracles and imprecations, of which the most terrible is, "Thy saint is a rascal who does not know how to make a decent miracle." The gondoliers are not as much given as they used to be to the singing of the sonorous verses of Tasso by moonlight in their musical pats. Occasionally an outburst of melody is secured by a traveler's coins, and there are always singing, playing and dancing at the inevitable festa.

Ringing Bells to Swarm Bees.

It is a foolish notion to suppose that the ringing of bells or "tapping" of tin pans will cause a swarm of bees to settle, says Country Life in America. The real origin of this custom dates back to the reign of Alfred the Great, who, in order to prevent disputes regarding the ownership of a swarm, ordered that the owner should always ring a bell when his bees swarmed, and ever since then the good farmer's wife has been rushing out with ringing bells whenever the bees swarmed, and the fact that they settled verified, in her own mind, the belief that the bell did it.

Force of Habit.

Speaking of force of habit, some years ago there was an iron railing around the capital grounds at Washington. The appropriation bill provided for a watchman to close and lock the gates every night at a certain hour every morning. In the course of time the railing of fence was removed, but the gates swung between their Egyptian pillars for a long time, and all that time the watchman came and went regularly, closing and opening the gates according to law and drawing his salary.

Monkey Puzzle Tree.

One of the most remarkable trees in the world grows in California and its place of leaves has spiky scales. The trunk and all of the branches are entirely covered with these scales, which are so sharp that even a monkey would find it out of the question to climb such a tree. Hence its name, "monkey puzzle tree," which is admirably descriptive.

THE TRICKS OF TIME

CURIOUS CHANGES THAT HAVE BEEN WROUGHT IN OUR DICTION.

Some Striking Examples of the Difference in the Use or Meaning of Words That, Once of High Esteem, Are Now Looked Upon as "Slangy."

It is now some 200 years since Dean Swift proposed to establish in England an academy, such as that of France, for "correcting and ascertaining" the English language. Are many people aware of what exactly would be the result of an institution of this kind? Probably not, for its effects would be mainly negative, and hence not likely to attract attention, and few men are philologists or even sufficiently interested in the history of language to realize that words are born and live and die as we do, and that in the interval they are subjected to insidious changes of fashion—affecting them where they can be affected in meaning and spelling and pronunciation—and that a British academy would put an end to all this.

But as yet fate or chance or whatever the god of dictionaries may be called has a free hand. And to the fact that time plays such unkind pranks upon poor harmless words, making them vulgar, perhaps, or ridiculous, we owe the lighter side of philology. So that when we take up an old version of the Bible—Wyclif, say, or Coverdale, or Tyndale—we may read, with feelings, perhaps, not of unkind reverence, that the Lord "trounced" Sisera and all his host or that he smothered his people, or, looking a little further, we may see the beloved of King Solomon "chopping" among the mountains, and the apostles, or the long skirted elders of Israel, rending their clothes and "skipping" out among the people. "Lo," says Wyclif, "he shall not happen, neither sleep that leproth Israel." And in translating Heliodorus xii, 22, "But ye are come . . . unto an innumerable company of angels," Tyndale, in perfect confidence of its fitness, uses the unhappy expression, "a sight of angels." But indeed we do not need to go so far back. Look at the seventeenth verse of the Seventh Psalm of our modern Bible. "His mischief," says David, "shall return upon his own head, and his violent dealing shall come down upon his own pate."

Some strange discrepancies we make, too, among the poets. "We sacred fumes" that on Parnassus dwell," sings Spenser in an ardent invocation to the Muses. And let us look at the opening lines of another poem long forgotten: "O Israel! O household of the Lord! O Abraham's 'brute'! O brood of blessed seed!"

Brats and brood! Could we better this? But poor Gascoigne intended neither jest nor profanity, and Milton, a greater than he, writes thus of Christ's temptation on the mountain, when Satan, having shown him the kingdoms of the world, bears him back to the wilderness: "our Saviour, meek and with untrodden mind."

After his airy flight, though hurried sore, hunger and cold belied him to his rest. Strange that words which have been applied with reverence to the highest should fall so low.

But the hand of time moves ever slowly and touches gently, and these changes, we may be sure, grotesque as they seem to us, came very gradually. We have but to think a moment to see that something of the kind is going on now. Take the case of pronunciation, where we are dealing with what is relatively obvious and simple, for ten men can tell how a word is pronounced for one who can say what it means. Have not many of us heard old people talk of revenue or committee instead of revenue and committee, the first word following the rule of change in English pronunciation—that the accent should be thrown back to the beginning—the second being a rare exception? And did not Samuel Rogers complain that the new-fangled pronunciation bilberry made him sick? He, good man, had been brought up to call it balberry, and that is not so very long ago. So that whether it goes by rule or by exception, whether we are governed by law or chance, we have to face the certainty that our pronunciation of many words will sound as old-fashioned to our grandchildren as committee does to us.

But whether it makes us feel young or whether it makes us feel old the habit of making words and of inquiring into the origin of common phrases is an excellent one and unfortunately not common. Take some of the stock political expressions one finds in every newspaper, for example. The "man in the street," whom the Boer war made famous, has Emerson for his parent. And Horace Walpole has the phrase "little Englander," which has perhaps a family likeness to the epithet "little Englander." And what of slang terms which we are accustomed to think of as American and modern and wholly reprehensible? Alas, Horace Walpole, the typical fine gentleman of the Georgian courts and literature, talks—"sitting guzzling" and of being "as drunk as an owl," both epithets, we hasten to say, descriptive of others, not himself. And Dr. Burney, the historian of music and astronomy, the friend of Johnson and of Burke, is actually found writing to his daughter in 1785, "The young Lady Spencer and I have become very thick." But, none surprising still, that celebrated daughter herself writes in her diary, "I sneaked out," "I had a vile cold," "Did you ever know such a fond?" all very direct, forcible expressions, any schoolgirl will say. "It is not a shocking thing," my dear Susette," the author of "Evelina" writes (in 1769) to her favorite sister, "that I am obliged to write to you upon this decent paper."—It always goes to my heart to read you so gently."

And eight years later, when she has been exalted to a post in Queen Charlotte's household, we find little Fanny, fresh from a royal visit to Gloucester

and look in her diary again. "I will not detail it," she says, "for any Gloucester guide will beat me hollow at that work." Strange! We did not think that the literary ladies in the eighteenth century would have permitted themselves expressions so unclassical as these, and least of all the first of British lady novelists, Dr. Johnson's darling little Burney. After all, no doubt, we do injustice to that poor century. Life was not all made up of tears and swoons and sighs. There were naughty people, perhaps, who knew the right and did the wrong then, as now. Or is fashion to blame again, and were these respectable literary expressions and their authors most innocent? If we remark that "we are afraid the price of tea is rising," we can scarcely hope to pass for literate persons, and yet once upon a time this was excellent English. And does not one of Fox's mortuary talks of his persecutors finding themselves "in the wrong box?" And do not certain old translators of Latin talk of some one "going to pot," and of the Romans being "in the dumps" after their defeat at Cannae? And Milton surely uses somewhere one unbecoming expression, "to save one's bacon." So that we must not be hard on the little keeper of the robes. Perhaps Fanny Burney and her good father came out scathless after all.—Pall Mall Gazette.

SSS THE BEST TONIC

In S. S. S. Nature has provided a tonic suited to every requirement of the system when in a debilitated, run-down condition. It contains no strong minerals or drugs, but is a pleasant vegetable preparation. You can find no better remedy for toning up the nerves and bringing refreshing, restful sleep.

S. S. S. improves the appetite and digestion, and its good effects are seen almost from the first dose. It acts promptly in cases of chronic dyspepsia, indigestion and all stomach troubles, and does away with the uncomfortable fullness, shortness of breath, drowsiness and dizziness that so often come after eating. S. S. S. is not only the best tonic, but possesses alternative or purifying properties, and if there is any heat, humor or poison in the blood, it searches it out and removes it. Many times a low state of health is due to a bad condition of the blood and can only be remedied by such a remedy as S. S. S.

If you suffer from debility, weakness, insomnia, nervousness, loss of appetite, bad digestion, or any of the miserable symptoms of a disordered blood, nothing will so soon put your blood in good condition, invigorate and tone up the system and restore the health as S. S. S.

WEATHER.

Washington, Aug. 10.—For Ohio,
showers and thunder storms and cool
or tonight. Thursday, showers.

A station on the Hooking Valley rail-
road, heretofore known as "Johnson's
Spring" and evidently the place
where Tom headed in last November,
has been officially changed to "Her-
rick" meaning of course, that Myron
will be the next one to be sidetracked.

It must be an indescribable pleas-
ure to the housewife who gets the
news over the increasing price of the
necessaries of life to know that the
price for American made steel rails,
a very able man, and we have great
respect for his opinions, but in this
case he is mistaken. The cashier of the
office tells us that our wages are at
the same old figure and is so irrever-
ent as to suggest that Mr. Wright has
lost in his bet. We hope the next
time Mr. Wright will not be wrong.

Hon. Carroll D. Wright, United
States Commissioner of Labor, in-
forms us that our wages have been
increased 100 per cent. Mr. Wright is
a very able man, and we have great
respect for his opinions, but in this
case he is mistaken. The cashier of the
office tells us that our wages are at
the same old figure and is so irrever-
ent as to suggest that Mr. Wright has
lost in his bet. We hope the next
time Mr. Wright will not be wrong.

The North Dakota pure food law
has much to commend it. For in-
stance, it requires that semi-annually
the food commissioner shall publish
in two papers in each county a list
of the adulterated foods that have
come under his official notice. These
publications are paid for by the state,
and the direct effect is to inform the
public and insure the support of the
state press for the law. If all of the
states had similar statutes the men
who get rich by food adulteration
would soon be looking for something
else to do.

Get Rid of Scrofula

Bunches, eruptions, inflammations, sore-
ness of the eyelids and ears, diseases of the
bones, rickets, dyspepsia, catarrh, wasting,
are only some of the troubles it causes.
It is a very active evil, making havoc of
the whole system.

Hood's Sarsaparilla

Eradicates it, cures all its manifestations,
and builds up the whole system.
Accept no substitute.

The Wisconsin supreme court, a re-
publican body issued an order yester-
day giving the "Stalwart" faction the
right to bring suit against the secre-
tary of state to restrain him placing
the LaFollette state ticket under the
eagle on the official ballot. The de-
cision created no surprise. The back-
ers of the Stalwart represent the na-
tional administration, plutocracy and
all, and its leaders are many of them
largely interested financially in the
various trusts.

Here are the rules as to courtship
which Dr. Dowie has enounced for
the guidance of Zionists:

"No young man may hereafter go
out walking with a young woman af-
ter dark without the consent of her
parents.

"The place to court is in the young
woman's home, where the old folks are
bandy and can be asked the question.
If any young man wishes to court
a Zion young woman, he must first
ask her parents, unless he is a robber.
Not much old-time simplicity and
personal liberty there, but a pretty
close following for the rules of so-
ciety in which it is assumed that any
young woman is in danger from any
man.

ROTTER TO CORE.

Senator Burton, republican, of Kan-
sas, who was convicted of accepting a
fee while practicing before the post-
office department, has obtained a writ
of error granting an appeal to the
United States court. There seems no
end to the obstructions which those
either charged with or convicted of
corruption in the departments at
Washington can interpose to prevent
the infliction of the statutory punish-
ments. The Louisville Courier-Journal
says: "Investigation has shown the
rottenness with which the postoffice
department festers, upon evidence
which would seem conclusively to es-
tablish the guilt of the parties arraign-
ed, and yet in nearly every case, be-
tween the failure of sentence in the
courts and the obstructions inter-
posed by those in power to shield the
guilty and save the guilty from re-
proach, a safe mantle of protection
has been thrown about the offenders
pending the November election. It
does not require much acumen to dis-
cern what will be the outcome if the
republican party shall succeed at the
polls in November. It will be claim-
ed as a vindication and that will be
the end of the matter. The only way
left to the people is to turn the rascals
out by defeating the party which has
fostered such a widespread system of
speculation, graft and rascality."

PARKER'S GROWING STRENGTH.

The letter of Carl Schurz to Judge
Parker, following closely upon Grover
Cleveland's article in Collier's Weekly
has discouraged the republican talk
about the democratic nominee being
a coward, and that the sending of the
telegram to the St. Louis convention
was a mere scurvy trick. The coun-
try showed quite plainly that it had
no toleration for such talk, but on the
contrary found Judge Parker quite as
worthy of praise as does Mr. Clevel-
and and Mr. Schurz. The republicans
have been compelled to shift their
ground by reason of the fact that the
attentions of Cleveland and Schurz
have carried great weight with the in-
dependent and German-American vot-
ers.

In this connection it is well to re-
mark that the leading German news-
papers which opposed the democratic
party in the last two presidential
campaigns because of Bryanism are as
warm in their support of Judge Park-
er as Carl Schurz himself. It is also
an interesting fact that many republi-
cans are declaring their readiness to
vote for the democratic nominee. This
is not merely proved by the letters he
is receiving, but in other ways, and
this republican defection will more
than offset the decision of some gold
democrats, like Mr. Oscar Straus, to
follow Mr. Roosevelt. It is the steady
growing belief that the president
is temperamentally an unsafe man
which is winning these recruits for
the democrats. All the oratory of a
Hay and a Root, and their arguments
that the republican party is the only
one with capacity to govern, cannot
make head against this as long as
their candidate is what he is.

STEPS LOOKING TO A SETTLEMENT.

Chicago, Aug. 10.—Steps looking to
a settlement of the stock yards strike
are to be initiated at a conference be-
tween the retail meat dealers associa-
tion of Chicago and the Market Wag-
on Drivers' Union, according to re-
ports that reached the packing house
teamsters today.

Vice President Raff of the union,
said a meeting was planned between

the retail butchers and the market
drivers last night, but the meeting
of the teamster's joint council session
interfered with the arrangements.

Extension of the picket lines about
wholesale and retail meat markets
was also promised by union officials.
A conference of the leaders was held
and plans were made to shut off ice
and meat from more establishments
patronizing the big packers.

HIS

Teeth Were Clinch- ed When

With Tears In

His Eyes Donnelly Said That

Tilden Alone Was Responsi- ble for the Reaping of the Meat Strike.

Charges That Packers Agreed to Take Back All Striking Employ- ees Into Their Old Positions but Tilden Broke Agreement.

Chicago, Aug. 10.—"Edward Tilden,
I want to say, is absolutely and alone
responsible for the reopening of the
strike." This assertion was made to-
day by President Donnelly, of the
butcher's organization. When he said
it, his teeth were clenched, and there
were tears in his eyes.

"When we signed the agreement to
abrogate the strike," he continued, "it
was understood that it was to be a
case of give and take. The packers
said at the meeting in Swift's office
when we signed the agreement that
they would probably want to retain a
number of their new men. I told them
it was all right, that we had no ob-
jection. Then I told them I wanted
them to let me know how many men
they could take back when they re-
opened, so that I could see that only
so many men reported for work."

Louis Swift turned to his associ-
ates and asked: "Can't we open up
all departments and take back all
men?"

It was agreed that such should be
the case though we knew it would
take some time for all the strikers to
get back to their old places.

The packers told us they needed
us and wanted us. We told them we
needed the work and all looked pros-
perous. It was arranged that every
man was to go back and take his old
check number, so far as possible.

"The agreement was not what I
wanted, but it was an agreement and
I thought it could be so handled as to
bring results that would be fair to
both sides and no honest man wants
anything better. Therefore when I
left the conference, I felt some degree
of happiness, but I had no sooner
reached the street than I met a crowd
of newspapermen and one of them
showed me a statement written by Ed-
ward Tilden, declaring that the pack-
ers had gained all the advantage. The
reporters asked me about it. I was
that angry that I gritted my teeth,
nodded my head and said 'Amien' and
buried away. If he had kept still all
would have been well."

COLONEL

And His Staff Leave for Bos- ton Saturday.

Two Pullmans Engaged for Accom- modation of Those Going to Na- tional Encampment.

The Lima delegation that will at-
tend the G. A. R. national encamp-
ment at Boston, will leave Saturday
over the C. H. & D. and quite a num-
ber will take advantage of the cheap
rate, which is less than half fare. Two
Pullman cars have been provided, one
of which will be occupied by State
Commander Moulton and his staff.
The Col's aides will come to Lima to
take the train and the route will be
over the C. H. & D. to Leipsic, thence
via the Nickel Plate, the West Shore
and the Boston and Maine railroads.
The two Pullman's both of which will
have all of their sections reserved,
will be taken to Leipsic on No. 6, at
noon, Saturday.

EXPENSE

Will Exceed Appropriation for Sidewalk Work.

Yesterday, the board of public ser-
vice awarded contracts for the build-
ing of a number of cement, brick and
stone side walks on south McDowell
south Metcalf, west Kibby, Oak, Pine
and Scott streets, and on McPherson
avenue and Madison avenue. It was
found in going over the grounds where
the building of sidewalks had been
ordered, that the expense of the work
will exceed the \$1,500 appropriation
recently made for such purposes and
consequently some of the work may
be postponed.

ANOTHER

Big Party Will Take a Trip to the Falls.

The second Niagara Falls excursion
out of Lima this season leaves tomor-
row over the C. H. & D., the first oc-
curring a few days ago, when a large
number went via the Lake Erie and
Western. The former was well patron-
ized and the second will also be, as
all of the berths in the Pullman pro-
vided for the Lima excursionists have
been disposed of and many more will
make the trip in the ordinary coach.

Dr. Pierce's Favorite Prescription

BRINGS THE

SUNSHINE OF HEALTH AND HAPPINESS TO SICK WOMEN.

Backed up by over a third of a cen-
tury of remarkable and uniform cures,
a record such as no other remedy for
the diseases and weaknesses peculiar
to women ever attained, the proprie-
tors and makers of Dr. Pierce's Fa-
vorite Prescription now feel fully war-
ranted in offering to pay \$500 in legal
money for any case of Leucorrhea,
Female Weakness, Protrusion, or Fall-
ing of Womb, which they cannot cure.
All they ask is a fair and reasonable
trial of their means of cure.

Very often a married woman or
young girl does not know who to turn
to for advice in circumstances where
she dislikes to talk with the family
physician about delicate matters. At
such times write to Dr. R. V. Pierce,
chief consulting physician to the
Invalids' Hotel and Surgical Institute,
of Buffalo, N. Y., for free consulta-
tion and advice, and the same will be
held as sacredly confidential. It is
foolish to consult women friends or
persons without medical training.

All other compounds intended for
women only are made with alcohol,
which is a large component—this
alcohol injures the nerves. The lit-
tle red capsules of the blood are
shrunk by alcohol. All such com-
pounds, therefore, do harm.
Dr. Pierce's Favorite Prescription
was the first exclusively woman's
tonic on the market—it has sold
more largely in the past third of a
century than any other medicine for
women.

HENRY G. DAVIS IN BUSINESS.

Walter Crowder, of West Virginia,
tells a number of good stories about
the business sagacity of Mr. Davis, the
democratic vice presidential candi-
date. Here is one:

"About thirty years ago he wanted
to buy some coal lands without letting
the owner know he wanted 'em. The
owner wanted to sell without letting
Davis know he wanted to. I took the
two a long time to get together, so ex-
cessively cautious were they. Finally
however, they met and came abruptly
to the scratch.

"How much?" asked Davis.
"A cool million, and not a cent less,
the other replied.
"Give you \$150,000," said Davis,
"and not a cent more."
"In less than two hours, Davis got
the property for \$50,000 and made
a splendid bargain. After everything
was settled and the money paid over,
Davis said:

"Why did you ask me a million dol-
lars for that land?" The seller re-
plied.

"Because I thought you'd be fool
enough to give it. Why did you offer
me \$150,000?"

"Because I thought you'd be fool
enough to take it." They laughed,
winked, shook hands and have been
close friends ever since."—Kansas
City Journal.

Bee's LAXATIVE Honey and Tar
is different from all other cough syr-
ups. It contains antiseptic properties
to destroy the germs, solvent prop-
erties to cut the phlegm, and laxative
properties to cleanse the system.
Bee's LAXATIVE Honey and Tar is a
pleasant, permanent cure for all
coughs, colds, lung and bronchial af-
fections. H. F. Vortkamp.

NOT THE LAST ONE, THOUGH.

When Thomas B. Reed, was in Cali-
fornia, says the Youth's Companion,
he visited the Lick observatory, on
Mount Hamilton. It was a wonderful
November day, full of gold and the
bloom of flowers. Mr. Reed looked
down at the gorgeous landscape 1000
feet below and, turning to one of his
hosts, he said:

"Colonel, this looks too much like a
special display got up in honor of the
occasion. Tell me what a typical win-
ter day in California is really like."

The Californian thought at once of
a day in February, so warm that after
a morning bath he had lain in a ham-
mock, outdoors, smelled the roses on
the trellis, and listened to the trill of
the meadowlark among the almond
blooms.

He began to describe it eloquently:
"Thirteen years ago, on February 22,
I took a bath."

He paused to arrange his account
of the roses and the meadowlark. Mr.
Reed broke the pause:

"Well, Colonel," he said, in admi-
ration, "you do know something about
cleanliness out here, don't you?"—

BOUTWELL RETIRES.

"To Let" is in the window of the
office of George S. Boutwell, on State
street. Placed there today, it sig-
nifies that the aged statesman has re-
tired to private life. For more than
half a century, Mr. Boutwell, who is
86 years old, has practiced law in
Boston, rarely missing a day from his
office, except when his duties as gov-
ernor of the state, secretary of the
treasury under President Grant, rep-
resentative in congress or United
States senator, prevented.

Mr. Boutwell was one of the found-
ers of the republican party. In recent
years he was a leader in the anti-im-
perialist movement. This year he
will vote for Judge Parker. He lives
in Boston, and is in very good health.

SLEEPING CARS ON ERIE FALLS

OTHER

Teams Go to the Wall

But the Locals,

With Continued Support Will Finish Season.

Management Hasn't Begged a Dollar Without Giving Value Received.

Coupon Tickets Will Be Sold to Make It Profitable to Play Week Day Ball—Defiance Team Had to Disband.

Ray Wise, who was tried out by Defiance in the game with Lima Sunday, and offered a place with the team among the slab artists, received notice yesterday that the team had failed to make the rifle and would have to disband. So it has gone through the season, nearly all of the neighboring towns having made an uphill fight to keep the national game alive, but base ball players capable of putting up the fast kind of sport demanded by the fans, cost money and unless the patronage is forthcoming the club is finally compelled to lay down before financial defeat.

Piqua held out last year and the management made some money, but this season there was a falling off in attendance and some of the best players outside the leagues were dumped overboard a month ago. Paulding's strong team failed to bring enough shovels into the treasury to meet the bill; Warren went to the wall early in the season; Sidney tried it and so did Wapakoneta without success. Urbana had a team that was almost invincible, but lacked support, and Findlay has been waddling and threatening to go to pieces. And now Defiance gives up the ghost. Who's next?

LIMA IS STRONG

And With Encouraging Support, Will See the Season Through.

Lima started with a team of all home talent, and has gradually added strength by the engagement of several strong players from defunct organizations. Two games a week have been played Saturday and Sunday, but the week day attendance gives a clue on what the other towns have had to contend with as the paid admissions have been scarcely enough to pay expenses. On Sunday, however, grand stands and bleachers are filled and the grounds well sprinkled with copywriters, thus assuring a dividend on the investment.

The Lima management will not put away any big profits this year, however, as the season was opened late and over \$2,000 was expended in putting the grounds in proper condition. The fence enclosing the big lot was spread around more surface than is ordinarily the case and was a heavy expense, while the grand stands, bleachers and grading of the diamond also ran into money. The players are drawing salaries from \$10 to \$50 a month and yet the club hasn't been appealed to for a dollar, outside the purchase of tickets, giving them admission to the games.

The management has decided on a change and will hereafter make a charge of 15 cents for ladies at the Sunday games, but giving them free admissions during the week. One of the managers in discussing the situation said:

"Lima has the only ball park in the country that has permitted ladies to attend free of charge. Owing to the demand of the fans for a first class ball team, the management has secured some of the best players to be had, and intends now to see whether week day ball will pay. Whether park is not only a great improvement, but a benefit to the city. The games played on Sunday keep fully a thousand people home who would no doubt take advantage of the numerous excursions to other points and there-

spend the greater part of their weekly earnings. The park management gets at the most, only a small per cent. The business men of the city get the benefit of what outside towns would ordinarily reap, and the salaries paid the twelve members of the team are also left with the boarding houses, restaurants and stores.

"In order to keep good material on the team, it is necessary to have a large attendance at the games, and the management is not going to beg for money without giving value received. It is the intention now to dispose of a number of coupon tickets, which was the purpose when the park was first opened. The tickets sell for \$1 and are good for four games. They are now on sale by members of the team and friends of the club, and we hope that everybody who believes in keeping money at home will fall in line when approached.

"Tomorrow we will take another turn at Findlay, and Saturday and Sunday, one of the strongest teams from Columbus will be the attraction. We hope that the little change in the program and small fee charged ladies for the Sunday games will keep none of the fair sex from attending."

IGGOROTES VISIT TEDDY.

After Congratulations They Are Promised Everything Except Self Government.

Washington, Aug. 10.—Picturesquely, but quiet, and quaintly garbed, a party of eight Moros and Igorrote chiefs, constituting a part of the Philippine exhibit at the St. Louis exposition late yesterday paid their respects to President Roosevelt at the White House.

The exchange of greetings between the chiefs was formal but happy, and in their own tongue. Through an interpreter, the chiefs expressed their pleasure at being received by the president and told him that he might depend on their loyalty to the American government. President Roosevelt after shaking hands with each one of his little brown visitors, replied that he was glad of the opportunity to greet these and welcome them to the national capital and to assure them that the American government desired to promote their welfare, prosperity and contentment.

As the president's kindly expressions were interpreted to them, they nodded their heads in approval, finally making their thanks. The interview took place in the president's private office, which adjoins the cabinet meeting room.

While it was in progress, the members of the cabinet arrived to attend to their regular semi-weekly meeting. Each in their turn, was presented to the Philippines, who paid them the highest respect known to their people. Before the conclusion of the meeting, the chiefs presented the president with some handsome native gifts, including curiously carved metal pipes, beautifully embellished spears and two shields, one of closely woven native queneas and the other of carved wood. After they left the executive office, the Philippines were shown the lower parts of the White House.

PITTSBURG MAN DIES OF STARVATION.

New York, Aug. 10.—A man who registered at a Broadway hotel last Friday as "Joseph Gregg," of Pittsburgh, is dead at Bellevue hospital, and the coroner's jury will investigate the cause.

Gregg, who said he was an agent, remained at the hotel one night. He was found early Monday morning walking in Broadway, clothed only in pajamas and an overcoat. The police sent him to the hospital where he became unconscious. The doctors said he was suffering from starvation. When Gregg regained his senses for a few moments he told them he had eaten nothing for three days. Later, he was seized by convulsions and died. He is said to have been apparently in good health when at the hotel. He was about thirty-nine years old.

U. S. DECLINES PROPOSITION.

Washington, Aug. 10.—This government has declined the proposition from the governments of Siam and Abyssinia for the negotiation of parcels post treaties with those countries. There is no direct mail service to either of those countries and the parcels would have to be carried across other countries to reach them. There is no provision for intermediary transit of parcels, although there is of ordinary mail, and consequently this government finds itself unable to negotiate any parcels post arrangements with them.

Wooden Bridges on Detroit Southern to Be Replaced With New Steel Bridges—Railroad News.

A special meeting of the board of directors of the Findlay, Ft. Wayne & Western railroad company was held at the general office, Carew building, in Cincinnati, yesterday, for the purpose of reorganizing the board and electing new officers. The following were elected directors: Mr. Eugene Zimmerman, Mr. Russell Harding, Mr. Thomas H. Tracy of Toledo, Mr. John E. Bruce, Mr. Thomas J. Walsh.

The board then proceeded to elect officers as follows: President, Mr. Eugene Zimmerman; vice president, Mr. Russell Harding; secretary, Mr. Thomas J. Walsh; treasurer, Mr. F. H. Ebert.

The Cincinnati, Findlay and Ft. Wayne railroad, says the Enquirer, extends from Findlay to Ft. Wayne, a distance of 78 miles. The connecting link between the Delphos division and the Ft. Wayne division, which has been building for some months, will be completed and ready for operation by September 1, forming a through line between Cincinnati and Fort Wayne, with trunk line connections at the latter point for Chicago and the northwest, making a very important new line between the Ohio River and the lakes.

One-eyed Engineers to Be Transferred. Several locomotive engineers in the employ of the Erie railroad have been transferred to other service because they possess but one good eye each. An official order has been issued by the Erie management requiring that all one-eyed engineers be taken off the train service and put to work where eyesight does not enter into the responsibilities of the position. Railroad managers say that some of the best locomotive engineers in service have only one eye, but the "good" of the service requires that all engineers must have two good eyes and there must be no exception to this rule. In most cases the one-eyed engineers lost their other eye in the performance of duty and consequently the railroad companies will not turn such men adrift. Some kind of employment will be found for them.

Three New Steel Bridges. Receiver Samuel Hunt, of the Detroit Southern railroad has closed contracts for three new steel bridges to replace present wooden structures on the line, and for rebuilding one thousand freight cars. It has also been decided by Receiver Hunt to build new shops for the road, costing between \$60,000 and \$80,000, at some point on the line. The location of the new shops will be determined largely by the land grants or bonus offered by the various cities under consideration among which are Springfield and Lima.

BAD ENDING TO HIS VISIT.

Colorado Woman Pulls True Bead and Kills Husband Who Annoyed Her.

Golden, Col., Aug. 10.—Mrs. Ida Stebbins, of Pueblo, has killed her husband, Albert Stebbins. They had been separated for two years and the husband sought an interview with the woman at the ranch near here where she was employed. Upon being refused admittance to her room he threatened to break down the door. The woman thereupon fired through the door, the bullet lodging in Stebbins' brain. A young daughter of the couple handed the mother the gun with which she did the shooting. The woman was arrested.

HALF OF MEN HAVE QUIT WORK.

General Strike of Butchers Became Operative in New York This Morning as Ordered.

New York, Aug. 10.—Following the ultimatum given the packers by the Amalgamated Beef Cutter and Butcher Workmen yesterday, that a general strike would go into effect today, the order became operative at the time set this morning. The plants affected are those affiliated with the so-called "beef trust."

A difference of opinion exists already as to the number of men on strike, the union opinion being that the strike is complete while the packers state that only about fifty per cent of the men have left and their places will be quickly filled.

President Blumenthal, of the Dressed Beef Co., said that only about fifty per cent of the men had quit work in his establishment. The firm employs 500 regularly and he said 300 of them reported for work today. The 200 that left he said included all the cattle butchers. Despite the absence of the strikers, he said the company would slaughter eighty per cent of its supply. The Dressed Beef Co. claims to have about a month's supply of beef in the refrigerators. Until this supply is about exhausted, President Blumenthal says there will be no rise in prices.

Homer D. Call, the national secretary of the strikers' organization, said today that the officials of the plants in this city affected by the strike order were using every means to induce the men to return to work.

Fifty extra policemen were stationed in the vicinity of the affected plants to prevent any disorder, but everything was quiet today.

ONE OCCUPANT MET HIS DEATH.

Carry-all Containing Four Persons Struck by Coney Island Street Car.

New York, Aug. 10.—A carry-all, carrying four persons was struck by a Coney Island trolley near Brighton Beach race track this morning. One of the occupants was killed and three were seriously hurt.

The carry-all was wrecked. The dead, E. Osborne, clerk of the Coney Island police court.

Injured, Alderman Frederick Lundy, probably will die. Charles Logan hurt internally. William McKane, hurt internally. The carry-all was crossing the tracks when the car rounded a curve at high speed.

RELATIVES OF PERSONS WHO

Were Drowned by Sinking of Steam-er Cannot Recover Any Damages.

Portland, Ore., Aug. 10.—The Puget Sound Navigation Co. the owners of the steamer Chatham which sank during a storm in the Strait of Juan de Fuca, Jan. 5, 1904, with 12 passengers and ten officers and crew, have been relieved of liabilities for damages on account of the accident by United States District Judge C. H. Bellinger. The steamship company recently, under a provision of the federal statutes filed a petition in the United States district court asking for a limitation of liabilities resulting from damage claims by relatives of persons who were drowned in the catastrophe.

The petition recites that the value of the steamship and freight immediately after the accident was \$295. No claims, however, were presented and the claimants after legal time to take action were declared in default. The decree states that all claims growing out of the disaster to the steamship are forever discharged and all parties are restrained and enjoined from presenting demands.

PRIZE FIGHTS WILL BE BARRED.

Some Other Form of Entertainment Must Be Provided for Non-Union Men.

Chicago, Aug. 10.—Prize fights for the entertainment of non-union workmen at the stock yards may cease as the result of an accident that caused the cancellation of a programme of three bouts last night.

The prize ring was in the interior of the stock yards on Packer's avenue, West 43rd street. Daniel Smith, employed as a strike breaker by Morris & Co., was pitted against Peter Ford. Both men are colored. Smith struck Ford on the head with such force that Smith's arm was shattered and the programme was declared off.

The police are said to have been given orders to prevent any further prize fights in the yards.

Despite all efforts of commission men, today's receipts of live stock were so heavy as to astonish the packers.

There were 23,000 cattle, 25,000 hogs and 15,000 sheep. With the New York packing plants closed by the strike, the disposal of all the receipts was admitted to be a difficult problem.

NICK IN TROUBLE.

Philadelphia, Aug. 10.—Nicholas D. Eunter, alias Nick Danconio, has been arrested at Ardmore, a suburb, by special officer Parish, of South Fork, charged with complicity in the murder of Charles F. Hays, on July 30th, near Portage, Pa.

Hays, in company with Paymaster Campbell, were carrying a satchel containing \$3,000 to the mines for the purpose of paying off the miners of Puritan Mining Co., when they were shot from ambush. Hays died almost instantly, while Campbell was dangerously wounded. The assassins made their escape after securing the money.

READY TO TREAT.

Washington, Aug. 10.—A message has been sent to the government of San Domingo, announcing the readiness of this government to negotiate a treaty with that country, in accordance with the recent request to that end submitted by San Domingo. A copy of the agreement made with Venezuela with necessary notifications but substantially similar to most of the agreements made with countries in the western hemisphere has been forwarded to San Domingo as a basis for the forthcoming treaty.

As the Result

**Of Complaint Made By
L. E. & W. Men.**

**The Case Was Investigated
by the Board of Public
Safety.**

**Charles Shores Bound Over On a
Charge of Pointing a Firearm—
Other Minor Cases In
Mayor's Court.**

Policemen Dan Kelly and David Slichter, of the city's regular force, are taking an enforced vacation of ten days each in accordance with a sentence imposed by Mayor Robb, as punishment for a breach of discipline. Brother officers, who are not, however, members of the city police department, filed the complaints which resulted in the temporary absence of Kelly and Slichter from their usual posts of duty.

The trouble seems to have grown out of a refusal on the part of the two policemen to make a couple of arrests that special officers, Countryman and Miller, of the L. E. & W., wanted them to make one night last week. The latter filed a complaint with the head of the city department and a hearing was held before the mayor and members of the board of public safety, with the result mentioned above. Both of the suspended men are good officers but the mayor and board of public safety insist on thorough discipline in the department. M. Long and J. H. Hooper, two new applicants for positions on the police force, are on duty in the places of Kelly and Slichter.

In Mayor's Court.
Charles Shores, colored, charged with having threatened J. D. Morin with a revolver, waived examination and was bound over to the court of common pleas.

Thomas O'Grady and Wesley Jacobs arrested for drunkenness, were fined \$5 and costs, each.

Harry Roush, charged by his sister-in-law with disorderly conduct, was notified to appear for trial this afternoon.

Anna McGall, charged with telling fortunes without having a license, was dismissed.

J. D. Williamson, a Second street resident, who carries the title of "Attorney at Law" and who was arrested on complaint of his wife, was dismissed for want of prosecution. His wife alleged cruel treatment in the charges she failed to prosecute. It should be remembered that there are two attorneys in the city named Williamson and that Attorney Howard P. Williamson was not the man arrested.

MANY TAILORS WILL BE IDLE.

Executive Board of Garment Workers' Union Endorses Strike of the Cutters.

Chicago, Aug. 10.—The executive board of the Garment Workers Union has agreed to endorse the strike of the cutters and will call out all the union members, whether men or women, to-day.

This action means that 6,000 to 7,000 tailors will be made idle. When the cutters quit on a technical disagreement over hours of labor and wages it was not thought serious by the employers, for it was the dull season and few large orders were on hand. The calling out of all the garment workers has put a different phase on the case and it now seems likely that the cutters, having won the point with the executive board, will be able to tie up all the shops in the city and seriously embarrass the full trade.

WASHINGTON HOTEL MAN DIES SUDDENLY IN PARIS.

Paris, Aug. 10.—E. T. Roessle, owner of the Arlington Hotel, Washington, D. C., died suddenly at the Grand Hotel here today. Mrs. Roessle was at his bedside at the time of his death, which is believed to have been due to heart disease. It is understood that Mrs. Roessle will take the body of her husband back to America.

BULLETIN.

Chicago, Aug. 10.—Harris Franklin, a Deadwood, S. D., capitalist is negotiating with Chicago packers for the sale of 30,000 head of cattle he has on his Dakota ranges. He will suffer heavy loss through shortage of water in event he is unable to market the cattle.

THE ISLER.

The members of the Sunday school classes of the Wayne street Christian church enjoyed a picnic at the McCullough park yesterday afternoon.

One of the Aurora Dancing club's series of midsummer dances will be held at the McCullough park pavilion this evening.

A few years ago the United States Fish Commission was besieged with requests to stock the streams of the west and middle west with German carp, but it appears that the demand for this particular fish has become extinct. In spite of the distress caused by the strike in the packing house industry and the high prices of meat nobody wants carp, although many of the rivers and lakes in the west are reported to be teeming with the fish, but in spite of this fact the people all along the line are passing up carp unanimously. It seems, however, that the universal reneging on carp is the result of popular ignorance regarding the proper way to serve the fish.

In the first place the people do not know that the preparation of carp for the table is something of a study. According to the original German receipt the fish must be cleaned nicely and put out in the sun two days to dry. It is then nailed firmly to a board and thoroughly covered with salt, after which it is exposed two more days to the sun. The fish, which must not be removed from the board, is now ready for cooking. Place it in a hot oven and bake steadily for six hours. Then pull out the nails, take the carp from the board and throw it away, eating only the nails and the board which have been pronounced by experts to be the best parts of the fish.

A jolly crowd of the young society people picnicked at McBeth's park Monday evening. They were Eva Deisel, Edith Hillman, Margaret Goble, Edith Finley, Clara Frey, Louise Deebe, Bonnie Lynn, Hazel Crosson, Elsie Robinson, Francis Rolley, Hazel Hoover, and Miss Ronsabell, of Columbus, and Messrs. James Heffernan, Walter Fleming, Robert Black, Lloyd Apples, Ed. Lappin, Harry Smith, Russell Penny, Walter Longworth, Fred Garretson, Ross Cline, Murray Reed and Mr. Louis Vennor, of New Philadelphia.

Lander, Wyo., Aug. 10.—A forest fire is raging in the Wind River mountains between this place and Thorp, and already is reported to have destroyed a large area of timber. The fire is working eastward and a number of ranches and mining properties are directly in its path. The inhabitants and forest rangers have turned out to fight the flames.

THEIR FINAL RUN.

Springfield, Ill., Aug. 10.—Refreshed by a night's sleep, forty-one of the one hundred automobilists on their way from Boston and New York to St. Louis, left Springfield today for the last lap of their long journey. The tourists are due to reach East St. Louis about 4 p. m., where a stop will be made at the Eads bridge until all cars arrive and the automobiles will then proceed in a procession to the world's fair grounds.

DISCREDIT HIS STORY.

**Suspicious Circumstances Surround
Man Who Claims He Was
Bound and Robbed.**

Columbus, O., Aug. 10.—The detective force is making inquiry into the story told by Clarence Dye, found alongside the Pennsylvania railroad track last night, bound with a clothline. Dye claimed that he had been overpowered by three men, chloroformed and bound, and robbed of \$300 by the men who afterward placed him upon the railroad tracks. Dye claimed he rolled off the tracks just before a fast express train rushed past.

At St. Francis hospital, after midnight, he was raving for more than an hour. The police claim that the rope which bound Dye corresponded with one found at the Dye home and which had been freshly cut. His story is discredited.

ALL

**Coaches Will Carry
the Name**

Of the System

**And Pere Marquette
Drops Its Title.**

**Such Was the Conclusion of
the Officials Who Were
in Lima Yesterday.**

**"C. H. & D. System" to Be Lettered
on All Cars, With Initials
of Branches Added in Order
to Distinguish Them.**

It was learned during the visit of the new C. H. & D. officials at Lima yesterday that one of the first improvements to be made that will convert the recent acquisitions into one big system, will be the overhauling and painting of all the passenger coaches. They will be newly lettered and bear the name, "C. H. & D. System." Space will be reserved to carry in smaller letters, the initials of the various branches, including the Pere Marquette and the C. C. & I. The former road will thus lose its individuality and become a part of the C. H. & D.

By getting control of the Pere Marquette, the traffic arrangement with the D. & M., which has existed for a number of years, will be discontinued. The Pere Marquette and the D. & M. having been rival lines for traffic between Toledo and Detroit, and the C. H. & D. will now have its own line for through business, both freight and passenger from Cincinnati to Detroit.

As He Looks Now.
Vice President and General Manager Hadding, who made his first visit to Lima yesterday, has sufficient dignity to fit him for his high position. He is over six feet tall, weighs 200 pounds, and his fine appearance signals him out as a man of importance. Those who met him while the party made its tour through the shops, speak of him as a genial fellow, with just enough reserve to denote a keen sense of his position and the responsibility it carries. Those who bend to his dictation will be better able to judge his disposition and work after he begins to strain at his new harness.

HUNDRED

**From Lima Spend the Day
at Cedar Point.**

If the patronage enjoyed today by the Lake Erie and Western on its regular Wednesday reduced rates to Cedar Point is to be the average for the season, nothing has been lost by the discontinuance of the Sunday excursion. Nearly 100 tickets were sold to Sandusky this morning at Lima at the dollar rate, leaving 25 cents to be paid for the boat ride to the Point. Several who left this morning will spend the day with the party of young ladies who have leased a cottage for the week.

EIGHT HUNDRED MINERS GO OUT ON STRIKE.

Seranton, Pa., Aug. 10.—Eight hundred miners employed at the Old Forge colliery of the Erie Co., went on a strike yesterday. The strikers claim that the scales with which the mine cars are weighed are incorrect and that they are deprived of the credit for half a ton of coal for each car. The miners asked that an expert make an examination of the scales. The company they claim, agreed to this, but before inspection was finished, the company countermanded the order. The trouble at the Barnum Colliery where 1,000 men are on strike, it is said, is of a similar character.

SUBJECT FOR INVESTIGATION.

Paris, Aug. 10.—Consul General Dowdy, on arriving at the American consulate today, found that his private desk had been forced, the woodwork badly smashed, petty cash and postage stamps amounting to several hundred francs abstracted and his papers ransacked. The big safe of the consulate bore conspicuous traces of unsuccessful attempts to force it open. The safe contained a large sum in cash and important documents. The police are making the fullest investigation.

COMMITTEEMAN SCOTT ILL.

New York, Aug. 10.—U. S. Senator Nathan B. Scott, was taken ill at his desk in the national republican headquarters today. It is reported the attack is a serious stomach trouble similar to one a year ago. The Senator was taken to the Fifth avenue hotel, where a trained nurse and physicians are in attendance.

PERSONAL MENTION.

Mrs. C. Metherd, of St. Johns avenue, left today for a visit at Bloomington, Ill.

Miss Mayme Cunningham, of north Elizabeth street, and Miss Kathryn Sullivan, of west Wayne street, left last night for St. Louis to visit the World's Fair.

Mrs. John Sehl of Harrison, N. J., is the guest of her sister, Mrs. E. J. Sullivan, of north Elizabeth street.

Miss Maud Regan, of Toledo is visiting friends at 509 west North street.

GOOD FOR CARRIE.

Chicago, Aug. 10.—A special telegram to the Inter-Ocean from Richmond says:

COMPLAINT

**Against Young Girl Was Not
Proven.**

Probate Judge Miller held an examination this morning pertaining to a complaint made by Dennis Sullivan against his granddaughter Ella Roach, a girl fourteen years of age. The affidavit charged her with being incorrigible and with larceny. The girl made the defense that she was cruelly treated and that the humane society after hearing her story advised her to go to the home of a woman who had promised her protection. Judge Miller, after hearing the case, told her to return to her grandparents and if there were any acts of cruelty on their part to report to him. She was released on her own recognizance.

ADMIRALTY HAS INVITED

**Bids for Two Battleships That Will
Eclipse Anything Ever Yet
Attempted.**

London, Aug. 10.—The admiralty has invited the Clyde shipbuilders to tender for two battleships of 16,500 tons and high speed. It is said that these vessels in the matter of armament and armored protection will eclipse anything yet attempted. That the admiralty officials are in a hurry to get the vessels started is indicated by the fact that the tenders must be sent in by September ninth, which is unusually short notice.

COLLISION

**Between Bicycle and
Delivery Wagon**

**Results in Injury to Rider of
the Former.**

W. H. Solomon, a Carpenter, Severely Injured in an Accident Occurring at Corner of Main and Spring Streets.

W. H. Solomon, a carpenter whose home is near West Cairo and who boards with a family named Cotner, at 822 McPherson avenue, was severely injured in an accident that occurred at the corner of Main and Spring streets, shortly before noon today.

Mr. Solomon was on his way to dinner and was riding a bicycle and when he turned into Main street from west Spring street, he had his head down and suddenly collided with one of E. H. Dorsey's delivery wagons. He was knocked down and the wagon passed over him before the driver could stop the horse. He sustained a wound on the left side of his head and Dr. Thomas, into whose office he was carried, found a slight depression of the skull, but does not consider the injury a serious one. The injured man was taken to his boarding house in a hack.

OPEN HOUSE FOR FAIRBANKS.

**Old Home Week Attendants Giving
Vice Presidential Candidate
Hearty Welcome.**

Marysville, O., Aug. 10.—The feature of the "Old Home Week" program today was the industrial parade. The feature of the week is the address tomorrow of Senator Fairbanks, the republican vice presidential candidate, who was born at Unionville Center, near this city, and educated in the adjoining county of Delaware at Ohio Wesleyan University. He was admitted to the bar here in 1874 and removed to Indianapolis the same year. Those who knew Senator Fairbanks thirty years ago, are giving him a hearty welcome. The lodges are keeping open house for visiting members and citizens are entertaining former residents, some of whom have not been in the city for forty years.
